

K2-B November News

In a wink of an eye, we have come to the time to say goodbye. As we reminisced the days we joined since we were in Toddler and Playgroup, we are finding it harder to bid farewell to our beloved teachers and friends. We have laughed, played, studied and enriched our lives in this school together, and we will definitely keep the friendships going.

We came to know about different types of buses like double decker bus, school bus, city tour bus and private bus. We played picture game with our friends. Given a piece of puzzle, we found the other pieces of puzzle together with our friends to form pictures like ez-link card reader, wheel chair ramp, double decker bus and so on. As a closure activity, we shared some information about our puzzle pictures with our friends.

Our teacher introduced the topic about ERP. ERP stands for Electronic Road Pricing. ERP scheme is an electronic toll collection scheme adopted in Singapore to manage traffic by road pricing.

For art and craft activity, we created ERP gantry artwork using the cardboard edges. We were able to dip the cardboard edge on the paint to create ERP gantry on the drawing paper.

We created number stories using car toys, unifix cubes and legos. In pairs, we managed to create stories on people travelling on the road, crossing the road, alighting at the bus stop and so on.

Timmy is crossing the road then he sees four green cars and 2 blue cars that pass by the FRP gantry.
 $4 + 2 = 6$ He saw six cars altogether.

8 girls is at the bus and 3 girls get down at the bus and the bus only has 5 girls in the bus.
 $8 - 3 = 5$

Number Facts!

PAPER AIRPLANES

Creative Writing

We had a revision on consonant blends, digraphs and trigraphs. For creative writing, we used the target words to create a few sentences on our own.

On 4th November, we had picnic at Bedok Reservoir Park and then we headed to Forest adventure together with our friends and teachers. We had a great empowering experience at forest adventure. We developed courage and perseverance after completing 16 crossings. It was really a memorable experience!

We had an opportunity to experience an overnight camp at our school. We learned to pitch the tent and prepare our own breakfast. After our breakfast, we were engaged in some fun activities before the presentation of certificates.

**Wish you all the best
K2-B Kiddoes!**
