

It's the end of the month again and we are glad to be back to school after few months of Circuit Breaker Period. It was good to see our friends and teachers! We hope that this will be the start of a new beginning and that the pandemic will end soon. Here are some activities we did for the month of June:

- June 8-12: Back to School adjustment
- June 15 26: The New Normal and learning more about the new routines in school
- June 29- 30: Start of term 3

Unfortunately, Ms. Charlene had encountered a bit of technical issue with her working pass and she was not able to go to work for few days, yet it did not stop her from teaching children lessons for the said days. We did online lessons with her via ZOOM.

Dumpling Festival

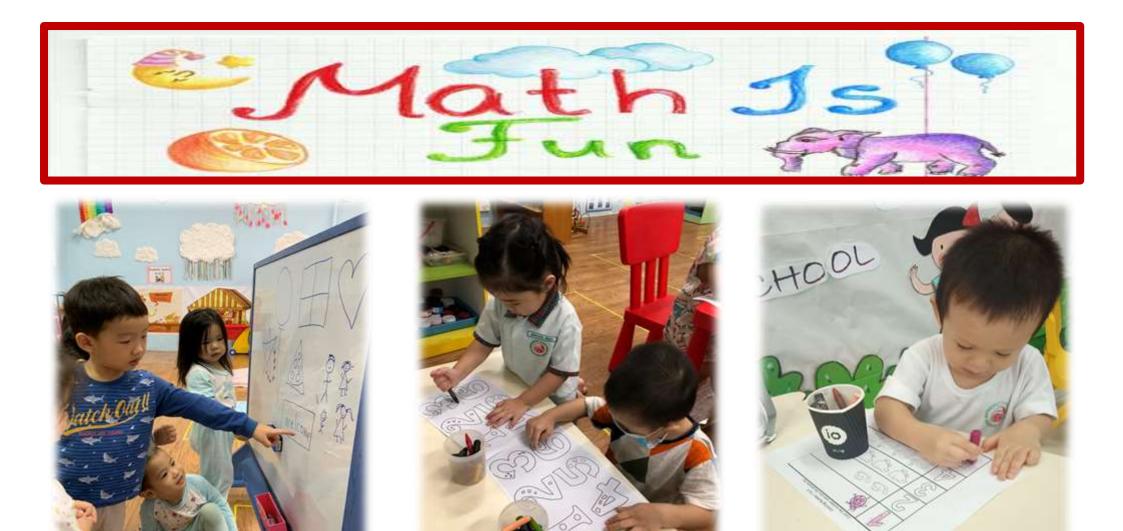

This month we learned about letter "p" and "n". We also practiced our fine motor skills through tracing and colouring.

We've learned more about numbers, and shapes and also started term 3 with topic "PETS". For last week of June we talked about "DOGS" and discussed about the body parts of a dog.
