Bullying Week, Holiday Programme

~ 23rd November - 27 November 2020 ~

Avery and Luqman colouring their posters to advocate against bullying!

"I learnt some of the reasons why people bully."
- Sophia Sun, P1

"I learnt the difference between upstanders and bystanders!" - Aaron Teo, P4

"I enjoyed watching the teacher dramatise the bully scene" - Ho Zhi Mei, P2

STOP!
DO NOT BULLY!

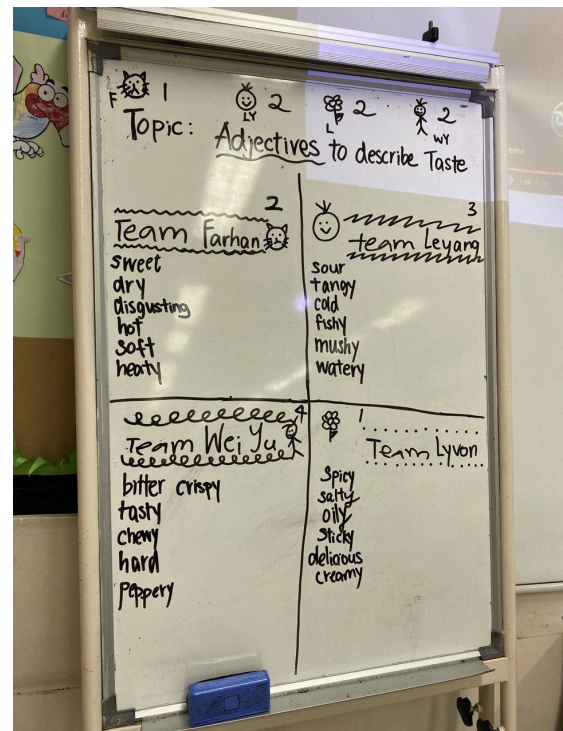

This week, the students learned about bullying. Starting with an introduction to bullying, followed by a variety of sharings and call to action on how to tackle bullying.

This week, I learnt about bullying. There are four types of bullying; cyberbullying, physical bullying, verbal bullying, and social bullying. If you bully someone, they might commit suicide, causing their families to be very sad and they might have suicidal thoughts. Some bullies bully others because they cannot get what they want or they want to feel powerful. Today, Ms. Abigail showed us a drama performance where a girl was being bullied by a boy. The boy bullied the girl because he had been bullied before and had no friend. I feel bad for both of them. - Ho Zhi Tai, P3

~ 21 November - 22 November ~

Hear the children's voices, hear their minds, hear what they have to say.

I felt nervous during the sharing because it was in front of so many people, and I also faced many challenges when I was finding clues on the internet for my sharing. However, I enjoyed my time upon hearing the funny responses from my friends. I learnt that sharing is not easy and I admire the effort the teachers put in. - Aaron Teo, P4 (right)

I felt upset during my sharing because no one was paying attention to Aaron and me. A challenge I faced was speaking too fast, making it hard for others to understand me. Nonetheless, I found this experience very interesting because I learnt more while preparing for this. I also learnt and experienced how much effort the teachers put into their sharings. - Lim Yao Ming, P3 (left)

I felt happy and excited because it was my first time doing an individual sharing in front of my peers! However, an obstacle I faced was when my peers couldn't answer one of the questions I asked. I think that perhaps, the question was too hard :(My favourite part of this event was the cartoon video that I had prepared and the chance to hold the mic and speak! Through this experience, I learned not to give up amidst the difficult obstacles in front of me. - Farhan, P5

When I was sharing, I felt nervous at first but after awhile, it didn't feel as scary anymore. A challenge I faced was trying to speak with a louder voice into the mic to ensure that everyone could hear me. I also wanted to ensure that my voice could be heard as I was wary of comments that would mock me for speaking soft when I am usually loud without the mic. Despite these challenges, I had a pleasant time doing the Q&A section where I could ask others questions on my sharing. After this sharing, I learnt that I don't need to be scared to share and I should have courage and just say it out! - Lyvon, P5
